## PROJECTS

**TechEvent Management Application** - A full-stack web app built with React, Tailwind CSS, Node.js, and MongoDB to manage technical events like hackathons. Successfully used in the TechKrutti National Event with real-time user engagement.

- **Home page** with countdown timer for upcoming events and options to Register Now or View Details
- **Contact us** page with embedded Google Maps showing the event location
- **Problem Statement** section where users can view and submit statements
- **Admin panel** (login-protected) to review problem statements—hidden from public users
- **Project Links** : [Github](#) & [LiveApp](#)

**Library Management Application** -A full-stack Library Management Application to manage books, users, and transactions.

Features include book issue/return, search, and admin controls for efficient library operations.

- **Add, update, delete** books with search and filter functionality
- **Manage student/user** accounts and their borrowing history
- **Issue and return** books while tracking due dates and fines
- **Admin dashboard** to monitor library activity and manage operations
- **Project Links** : [Github](#)

## ACADEMICS & ACHIEVEMENTS

- **Secured Top 10 position** in *Vaibhav Vidarbha Hackathon* held in Nagpur, showcasing innovative problem-solving skills
- Achieved **Runner-up** position in *Techaxion Design Competition* organized by the IT department
- Successfully developed and deployed real-time event management apps used in national-level tech events

## RESPONSIBILITIES & LEADERSHIP EXPERIENCE

**Lead organizer - TechKrutti 2K25 (National-Level Hackathon)** Mar 2025 | Nagpur, Maharashtra

- **Led the planning and execution** of an 8-hour national-level hackathon with 200+ participants
- **Directed a team of 25** coordinators across logistics, tech support, and judging operations
- **Successfully pitched and secured sponsorships** for prize funding and event promotion
